***6. Problems Encountered and resources required problems encountered –***

- a. Students' participation: Initially Students are reluctant to participate slowly as the time passes many more students join spontaneously.
- b. Overburdened teachers' resources: Academic – Administrative leave duties occupy advocate teachers in colleges to engage extra – more time, brain, knowledge in this best practice limits the resources, many advocate teachers take it as over burden. Some of teachers are too human social they contribute their brain. Intellectual skill and valuable time, so as to show must go on social cause.
- c. Busy professional – Bar association and its members are exclusively practitioners, occupied in profession, many of these neither involve nor encourage. However, on the contrary some of those are social, communal, and collective civilians for the society - the community.
- d. Infrastructure: To entertain, to interact, to council and to draft etc. to needy people requires space. In HEI, it is very difficult to meet both ends.
